Email: evan.wright@bigdata.io | Phone: (555) 021-9988 | Location: Chicago, IL

Summary

Data Engineer with 6 years experience constructing enterprise ETL/ELT data pipelines using PySpark, Apache Airflow, Databricks, Snowflake, and dbt.

Technical Skills

Big Data: Apache Spark, PySpark, Databricks, Apache Airflow, Kafka, Hadoop
Data Warehouses: Snowflake, BigQuery, AWS Redshift
Languages & Tools: Python, SQL, Scala, dbt, Docker, Git

Work Experience

Senior Data Engineer - DataMesh Corp (2021 - Present)
- Built automated Snowflake and dbt data models ingesting 5TB+ daily raw data.
- Orchestrated complex PySpark data transformation jobs using Apache Airflow.

Data Pipeline Developer - RetailAnalytics (2018 - 2021)
- Migrated legacy SQL ETL jobs to Spark on Databricks, cutting pipeline execution time by 60%.

Education

B.S. in Information Systems - University of Illinois Urbana-Champaign
