Zachary Levi - Senior Microservices Architect

Contact

Email: zachary.levi@microarch.com | Phone: (555) 042-5577 | Location: Charlotte, NC

Summary

Software Architect with 10+ years experience building cloud-native event-driven microservice architectures using Java 17, Quarkus, Spring Boot, Kafka, and Docker.

Technical Skills

Java Ecosystem: Java 17, Quarkus, Spring Boot, Hibernate, Reactive Java (Mutiny)
Event Streaming: Apache Kafka, RabbitMQ, Event Sourcing, CQRS
Databases & Cloud: PostgreSQL, Redis, Kubernetes, AWS, Docker

Work Experience

Lead Software Architect - CloudBank Tech (2019 - Present)
- Architected Quarkus-based microservice architecture reducing container startup time to <500ms and memory usage by 60%.
- Implemented CQRS and event sourcing patterns with Apache Kafka for core banking ledger.

Senior Java Developer - CommerceTech (2014 - 2019)
- Developed Spring Boot microservices handling order management.

Education

B.S. in Computer Science - University of North Carolina at Chapel Hill
